TMN Fantasy Application
version 1.1

Created May 6, 2019

Developers: Tim Sprunger, Nolan Morawski, Michael Bethel

Done

The TMN Fantasy Soccer Application allows you to create user accounts and to create personalized teams by adding players to your team page.

Application Instructions

1. Create account with username and password
2. After user account is created, this account can be used to log into the application at any time.
3. Once logged in, you have the option to choose players for your team or to remove players from a specific position.
4. By clicking the "Pick Player" button, you will have the ability to select a player from a list of players that correspond to the position you selected.
5. Once a player is selected, you have the ability to either add the player to the team immediately, or select the "Player Details" button to see more details about this player and add the player from that new menu.
